

## List of publications

Updated January 2026

### To be published in 2026

**Uvnäs Moberg, K.**, Bolling, M., & Petersson, M. (2026). Why oxytocin matters: How midwives can support and optimize oxytocin production in pregnancy, labor, birth and beyond. In M. Healy & A. Madeley (Eds.), *Evidence and Skills for Physiological Labour and Birth: A Guide to Implementing the Evidence into Practice for Midwives*. Taylor & Francis Ltd.

---

### 2025

**Uvnäs Moberg, K.**, Bolling, M., & Petersson, M. (2025). Oxytocin: The protective factor against high levels of maternal stress and its adverse consequences. In R. A. Caparros-Gonzalez (Ed.), *Maternal Stress during Pregnancy and Postpartum: Impact on Maternal Health and Fetal Development*. Springer.

**Uvnäs Moberg, K.** (2025). Oxytocin: Hormonet som skapar trygghet och kärlek i våra liv. *Seniora Läkare*, 3, 14–19.

---

### 2024

McGlone, F., **Uvnäs Moberg, K.**, Norholt, H., Eggart, M., & Müller-Oerlinghausen, B. (2024). Touch medicine: bridging the gap between recent insights from touch research and clinical medicine and its special significance for the treatment of affective disorders. *Frontiers in Psychiatry*, 15(1390673). <https://doi.org/10.3389/fpsyt.2024.1390673>

Petersson, M., & **Uvnäs Moberg, K.** (2024). Interactions of Oxytocin and Dopamine-Effects on Behavior in Health and Disease. *Biomedicines*, 12(11), 2440. <https://doi.org/10.3390/biomedicines12112440>

**Uvnäs Moberg, K.** (2024). Oxytocin in growth, reproduction, restoration and health. *Comprehensive Psychoneuroendocrinology*, 20(100268). <https://doi.org/10.1016/j.cpnec.2024.100268>

**Uvnäs Moberg, K.** & Bolling, M. (2024). *Medfödd: Om förmågan att vara förälder och oxytocinets effekter*. Carlsson Bokförlag.

Uvnäs Moberg, K., Gross, M. M., Calleja-Agius, J., & Turner, J. D. (2024). The Yin and Yang of the oxytocin and stress systems: Opposites, yet interdependent and intertwined determinants of lifelong health trajectories. *Frontiers in Endocrinology*, *15*(1272270). <https://doi.org/10.3389/fendo.2024.1272270>

---

## 2023

Berget, B., Vas, J., Pedersen, G., Uvnäs Moberg, K., & Newberry, R. C. Oxytocin levels and self-reported anxiety during interactions between humans and cows. (2023). *Frontiers in Psychology*, *14*(1252463). <https://doi.org/10.3389/fpsyg.2023.1252463>

Buckley, S., Uvnäs Moberg, K., Pajalic, Z., Luegmair, K., Ekström-Bergström, A., Dencker, A., Massarotti, C., Kotlowska, A., Callaway, L., Morano, S., Olza, I., & Meier Magistretti, C. (2023). Maternal and newborn plasma oxytocin levels in response to maternal synthetic oxytocin administration during labour, birth and postpartum: A systematic review with implications for the function of the oxytocinergic system. *BMC Pregnancy and Childbirth*, *23*(1), 137. <https://doi.org/10.1186/s12884-022-05221-w>

Goldkuhl, L., Gyllensten, H., Begley, C., Nilsson, C., Wijk, H., Lindahl, G., Uvnäs Moberg, K., & Berg, M. (2023). Impact of Birthing Room Design on Maternal Childbirth Experience: Results From the Room4Birth Randomized Trial. *Health Environments Research & Design Journal*, *16*(1), 200–218. <https://doi.org/10.1177/19375867221124232>

Goldkuhl, L., Gyllensten, H., Begley, C., Wijk, H., Nilsson, C., Lindahl, G., Ringqvist, A. K., Uvnäs Moberg, K., & Berg, M. (2023). Corrigendum to “Room4Birth - The effect of giving birth in a hospital birthing room designed with person-centred considerations: A Swedish randomised controlled trial”. *Sexual & Reproductive Healthcare*, *37*(100883). <https://doi.org/10.1016/j.srhc.2023.100883>

Meth, EMS., Brandão, LEM., van Egmond, LT., Xue, P., Grip, A., Wu, J., Adan, A., Andersson, F., Pacheco, AP., Uvnäs Moberg, K., Cedernaes, J., & Benedict, C. (2023). A weighted blanket increases pre-sleep salivary concentrations of melatonin in young, healthy adults. *Journal of Sleep Research*, *32*(2), e13743. <https://doi.org/10.1111/jsr.13743>

Moussa, A., Uvnäs Moberg, K., Elgrahy, I., Elsayied, M., Abdel-Rasheed, M., Farouk, M., Saad, H., & Meshaal, H. (2023). Effect of topical oxytocin gel on vaginal mucosa in postmenopausal Egyptian women: A clinical randomized trial. *The Journal of Sexual Medicine*, *20*(2), 177–183. <https://doi.org/10.1093/jsxmed/qdac021>

**Uvnäs Moberg, K.** (2023). The physiology and pharmacology of oxytocin in labor and in the peripartum period. *American Journal of Obstetrics & Gynecology*, 230(3S), S740–S758. <https://doi.org/10.1016/j.ajog.2023.04.011>

---

## 2022

Goldkuhl, L., Gyllensten, H., Begley, C., Wijk, H., Nilsson, C., Lindahl, G., Ringqvist, AK., **Uvnäs Moberg, K.**, & Berg, M. (2022). Room4Birth - The effect of giving birth in a hospital birthing room designed with person-centred considerations: A Swedish randomised controlled trial. *Sexual & Reproductive Healthcare*, 32(100731). <https://doi.org/10.1016/j.srhc.2022.100731>

Müller-Oerlinghausen, B., Eggart, M., Norholt, H., Gerlach, M., Mariell Kiebgis, G., Arnold, M. M., & **Uvnäs Moberg, K.** (2022). Berührungsmedizin: Ein komplementärer therapeutischer Ansatz unter besonderer Berücksichtigung der Depressionsbehandlung (Touch Medicine: A complementary therapeutic approach exemplified by the treatment of depression). *Deutsche Medizinische Wochenschrift*, 147(4), e32-e40. <https://doi.org/10.1055/a-1687-2445>

**Uvnäs Moberg, K.** (2022). *Hundstund: Prata, klappa, leka, läka med oxytocinbomben i vardagsrummet*. Natur & Kultur.

**Uvnäs Moberg, K.**, Julius, H., Handlin, L., & Petersson, M. (2022). Editorial: Sensory Stimulation and Oxytocin: Their Roles in Social Interaction and Health Promotion. *Frontiers in Psychology*, 13(929741). <https://doi.org/10.3389/fpsyg.2022.929741>

**Uvnäs Moberg, K.**, & Petersson, M. (2022). Physiological effects induced by stimulation of cutaneous sensory nerves, with a focus on oxytocin. *Current Opinion in Behavioral Sciences*, 43, 159–166. <https://doi.org/10.1016/j.cobeha.2021.10.001>

Wredle, E., Svennersten-Sjaunja, K., Munksgaard, L., Herskin, M. S., Bruckmaier, R. M., & **Uvnäs Moberg, K.** (2022). Feeding and Manual Brushing Influence the Release of Oxytocin, ACTH and Cortisol Differently During Milking in Dairy Cows. *Frontiers in Neurosciece*, 16(671702). <https://doi.org/10.3389/fnins.2022.671702>

---

## 2021

Grahn, P., Ottosson, J., & **Uvnäs Moberg, K.** (2021). The Oxytocinergic System as a Mediator of Anti-stress and Instorative Effects Induced by Nature: The Calm

and Connection Theory. *Frontiers in Psychology*, 12(617814).  
<https://doi.org/10.3389/fpsyg.2021.617814>

Takahashi, Y., **Uvnäs Moberg, K.**, Nissen, E., Lidfors, L., Ransjö-Arvidson, A.-B., & Jonas, W. (2021). Epidural Analgesia With or Without Oxytocin, but Not Oxytocin Alone, Administered During Birth Disturbs Infant Pre-feeding and Sucking Behaviors and Maternal Oxytocin Levels in Connection With a Breastfeed Two Days Later. *Frontiers in Neuroscience*, 15(673184).  
<https://doi.org/10.3389/fnins.2021.673184>

Wiberg-Itzel, E., & **Uvnäs Moberg, K.** (2021). The Correlation between Synthetic Oxytocin Given during Labor and Women's Personality Traits According to the SSP (Swedish University Scales of Personality) Survey: A Pilot Study. *Open Journal of Obstetrics and Gynecology* 11(6), 701–712.  
<https://doi.org/10.4236/ojog.2021.116065>

---

## 2020

Buemann, B., Marazziti, D., & **Uvnäs Moberg, K.** (2020). Can intravenous oxytocin infusion counteract hyperinflammation in COVID-19 infected patients? *World Journal of Biological Psychiatry*, 22(5), 387–398.  
<https://doi.org/10.1080/15622975.2020.1814408>

Daly, D., Minnie, K. C. S., Blignaut, A., Blix, E., Vika Nilsen, A. B., Dencker, A., Beeckman, K., Gross, M. M., Pehlke-Milde, J., Grylka-Baesclin, S., Koenig-Bachmann, M., Clausen, J. A., Hadjigeorgiou, E., Morano, S., Iannuzzi, L., Baranowska, B., Kiersnowska, I., & **Uvnäs Moberg, K.** (2020). How much synthetic oxytocin is infused during labour? A review and analysis of regimens used in 12 countries. *PLOS ONE*, 15(7), e0227941.  
<https://doi.org/10.1371/journal.pone.0227941>

Imami, A. S., O'Donovan, S. M., Creeden, J. F., Wu, X., Eby, H., C. B., McCullumsmith, **Uvnäs Moberg, K.**, McCullumsmith, R. E., & Andari, E. (2020). Oxytocin's anti-inflammatory and proimmune functions in COVID-19: A transcriptomic signature-based approach. *Physiological Genomics*, 52(9), 401–407. <https://doi.org/10.1152/physiolgenomics.00095.2020>

Julius, H., **Uvnäs Moberg, K.**, & Ragnarsson, S. (2020). *Am Du zum Ich: Bindungsgeleitete Pädagogik: Das CARE-Programm*. Reykjavik: Kerlingarholl.

Nilsson, A., Handlin, L., Lidfors, L., Petersson, M., & **Uvnäs Moberg, K.** (2020). Interacting With a Visiting Dog Increases Fingertip Temperature in Elderly Residents of Nursing Homes. *Frontiers in Psychology*, 11(1906).  
<https://doi.org/10.3389/fpsyg.2020.01906>

Olza, I., **Uvnäs Moberg, K.**, Ekström-Bergström, A., Leahy-Warren, P., Karlsdottir, S. I., Nieuwenhuijze, M., Villarme, S., Hadjigeorgiou, E., Kazmierczak, M., Spyridou, A., & Buckley, S. (2020). Birth as a neuro-psycho-social event: An integrative model of maternal experiences and their relation to neurohormonal events during childbirth. *PLOS ONE*, *15*(7), 0230992. <https://doi.org/10.1371/journal.pone.0230992>

**Uvnäs Moberg K.**, & Buemann B. (2020). Oxytocin may have a therapeutical potential against cardiovascular disease. Possible pharmaceutical and behavioral approaches. *Medical Hypotheses*, *138*(109597). <https://doi.org/10.1016/j.mehy.2020.109597>

**Uvnäs Moberg, K.**, Ekström-Bergström, A., Buckley, S., Massarotti, C., Pajalic, Z., Luegmair, K., Kotłowska, A., Lengler, L., Olza, I., Grylka-Baeschlin, S., Leahy-Warren, P., Hadjigeorgiou, E., Villarme, S., & Dencker, A. (2020). Maternal plasma levels of oxytocin during breastfeeding: A systematic review. *PLOS ONE*, *15*(8), e0235806. <https://doi.org/10.1371/journal.pone.0235806>

**Uvnäs Moberg, K.**, Gross, M. M., Agius, A., Downe, S., & Calleja-Agius, J. (2020). Are There Epigenetic Oxytocin-Mediated Effects on the Mother and Infant during Physiological Childbirth? *International Journal of Molecular Sciences*, *21*(24), 9503. <https://doi.org/10.3390/ijms21249503>

**Uvnäs Moberg, K.**, Handlin, L., & Petersson, M. (2020). Neuroendocrine mechanisms involved in the physiological effects caused by skin-to-skin contact – With a particular focus on the oxytocinergic system. *Infant Behavior & Development*, *61*(101482). <https://doi.org/10.1016/j.infbeh.2020.101482>

Van Dijk, W., Huizink, A. C., Müller, J., **Uvnäs Moberg, K.**, Ekström-Bergström, A., & Handlin, L. (2020). The Effect of Mechanical Massage and Mental Training on Heart Rate Variability and Cortisol in Swedish Employees: A Randomized Explorative Pilot Study. *Frontiers in Public Health*, *8*(82). <https://doi.org/10.3389/fpubh.2020.00082>

---

## 2019

Berg, M., Goldkuhl, L., Nilsson, C., Wijk, H., Gyllensten, H., Lindahl, G., **Uvnäs Moberg, K.**, & Begley, C. (2019). Room 4 Birth - The effect of an adaptable birthing room on labour and birth outcomes for nulliparous women at term with spontaneous labour start: Study protocol for a randomised controlled superiority trial in Sweden. *Trials*, *20*(1), 629. <https://doi.org/10.1186/s13063-019-3765-x>

**Uvnäs Moberg K.** (2019). *Why Oxytocin Matters*. Pinter & Martin.

**Uvnäs Moberg, K.**, Ekström-Bergström, A., Berg, M., Buckley, S., Pajalic, Z., Hadjigeorgiou, E., Kotłowska, A., Lengler, L., Kielbratowska, B., Leon-Larios,

F., Magistretti, C. M., Downe, S., Lindström, B., & Dencker, A. Maternal plasma levels of oxytocin during physiological childbirth: A systematic review with implications for uterine contractions and central actions of oxytocin. *BMC Pregnancy and Childbirth*, 19(1), 285. <https://doi.org/10.1186/s12884-019-2365-9>

**Uvnäs Moberg, K.**, Handlin, L., Kendall-Tackett, K., & Petersson, M. (2019). Oxytocin is a principal hormone that exerts part of its effects by active fragments. *Medical Hypotheses*, 133(109394). <https://doi.org/10.1016/j.mehy.2019.109394>

---

## 2018

Buckley, S., & **Uvnäs Moberg, K.** (2018). Nature and consequences of oxytocin and other neurohormones during pregnancy and childbirth. In S. Byrom & S. Downe (Eds.), *Squaring the Circle: Researching normal childbirth in a technological world*. Pinter & Martin.

**Uvnäs Moberg, K.**, & Buckley S. (2018). Oxytocin: A central hormone of labour and birth. In S. Morano (Ed.), *Safety and Childbirth*. The Italian Medical Association.

**Uvnäs Moberg, K.**, & Kendall-Tackett, K. (2018). The Mystery of D-MER: What can hormonal research tell us about dysphoric milk-ejection reflex? *Clinical Lactation*, 9(1), 23–29. <http://dx.doi.org/10.1891/2158-0782.9.1.23>

---

## 2017

Bendix, M., **Uvnäs Moberg, K.**, Petersson, M., Kaldo, V., Åsberg, M., & Jokinen, J. (2017). Insulin and glucagon in plasma and cerebrospinal fluid in suicide attempters and healthy controls. *Psychoneuroendocrinology*, 81, 1–7. <https://doi.org/10.1016/j.psyneuen.2017.03.019>

Kallak, T. K., & **Uvnäs Moberg, K.** (2017). Oxytocin stimulates cell proliferation in vaginal cell line Vk2E6E7. *Post Reproductive Health*, 23(1), 6–12. <https://doi.org/10.1177/2053369117693148>

Kendall-Tackett, K., & **Uvnäs Moberg, K.** (2017). *Does synthetic oxytocin lower mothers' risk of depression and anxiety? A review of a recent study by Kroll-Desrosiers et al. Connecting the Dots*. Lamaze International. Retrieved 19 January 2025, from <https://www.lamaze.org/Connecting-the-Dots/Post/does-synthetic-oxytocin-lower-mothers-risk-of-postpartum-depression-and-anxiety-a-review-of-a-recent-study-by-kroll-desrosiers-et-al>

Kendall-Tackett, K., & **Uvnäs Moberg, K.** (2017). Pitocin, epidurals, and others' mental health: How can doulas help when mothers have high-intervention births?

*International Doula*, 25(3), 25–27.

<https://cdn.coverstand.com/19785/440611/d8d3865af5e9caba5772aa52017b3d0d22a5f669.pdf>

Nielsen, E. I., Al-Saqi, S. H., Jonasson, A. F., **Uvnäs Moberg, K.** (2017). Population Pharmacokinetic Analysis of Vaginally and Intravenously Administered Oxytocin in Postmenopausal Women. *Journal of Clinical Pharmacology*, 57(12), 1573–1581. <https://doi.org/10.1002/jcph.961>

Petersson, M., **Uvnäs Moberg, K.**, Nilsson, A., Gustafson, L. L., Hybring-Sandberg, E., & Handlin, L. (2017). Oxytocin and cortisol levels in dog owners and their dogs are associated with behavioral patterns: An exploratory study. *Frontiers in Psychology*, 8(1796). <https://doi.org/10.3389/fpsyg.2017.01796>

**Uvnäs Moberg, K.**, Streit, U., & Nantke, S. (2017). Oxytocin-Stoffwechsel: Körperkontakt unter erschwerten Bedingungen. *Deutsche Hebammen Zeitschrift*, 69(11).

Vargas-Martínez, F., Schanler, R. J., Abrams, S. A., Hawthorne, K. M., Landers, S., Guzman-Bárceñas, J., Muñoz, O., Henriksen, T., Petersson, M., **Uvnäs Moberg, K.**, Jiménez-Estrada, I. (2017). Oxytocin, a main breastfeeding hormone, prevents hypertension acquired in utero: A therapeutics preview. *Biochimica et Biophysica Acta. General subjects*, 1861(1 Pt A), 3071–3084. <https://doi.org/10.1016/j.bbagen.2016.09.020>

---

## 2016

Al-Saqi, S. H., Fiano Jonasson, A., Naessén, T., & **Uvnäs Moberg, K.** (2016). Oxytocin improves cytological and histological profiles of vaginal atrophy in postmenopausal women. *Post Reproductive Health*, 22(1), 25–33. <https://doi.org/10.1177/2053369116629042>

**Uvnäs Moberg, K.** (2016). Mod att föda. *Jordemodern: Svenska barnmorskeförbundets tidskrift*, 2016(5), 4–7.
